The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/556,135	<b>Applicant(s)</b> LOGDBERG, OLA	
	<b>Examiner</b> NICHOLAS KISWANTO	<b>Art Unit</b> 3664	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 15 May 2008.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is in the form of an independent paragraph, yet references claim 4 as if it were a dependent claim. Amendment is needed.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 2, 6, and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leban (6,742,616).

As to claims 1, 2, 6, and 7, Leban shows a vehicle with an active boundary layer control (abstract). However, Leban is silent as to the specifics of regulating the magnitude of the wake in specific ways depending on the distance of a following vehicle not connected to the lead vehicle.

Nevertheless, it would have been obvious to one of ordinary skill in the art that a user of Leban would naturally regulate the magnitude of the wake using the active boundary layer control since it is commonly well-known that a wake is advantageous for convoy driving, as disclosed in applicant's specification [0006], amongst other places. A user of Leban could visually detect the distance to a following vehicle and assert control of the active boundary layer control when he deems the distance optimal.

#### ***Allowable Subject Matter***

5. Claims 3, 4, 8, and 9 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: Applicant claims a vehicle comprising a vehicle with an active boundary layer control device and a rearward distance sensor. Though there are many prior art examples teaching an active boundary layer control device, the Office has found that using a distance sensor to control the active boundary layer control device is novel.

#### ***Response to Arguments***

7. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Farlow et al. (6,886,882) discloses a cab extender assembly method and apparatus.

Winner et al. (2004/0119632) discloses a method for regulating the speed of a vehicle.

MacNeille et al. (2004/0193372) discloses relative positioning for vehicles using GPS enhanced with Bluetooth range finding.

McCrary (6,249,724) discloses an intelligent public transit system using dual-mode vehicles.

Bonutti (2007/0158502) discloses an ultrasonic communication and drag modification.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3664

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
